The CPREG®6 range includes optional CPREG®-C adjustment wedges enabling to multiply the installation possibilities, especially on overlapping doors.

They allow to compensate for the 7,5 to 20 mm overlap depth on this type of door.

3 sizes are available: 400 – 2500 – 3000 mm.

As well as CPREG® EM-lock handles, CPREG®-C wedges can be cut to the height of the door.
