Quickly installed, these door closers with scissor arm are suitable for a surface mounting on standard interior doors.

The closing force can be adjusted 2/3 for frames having a wing width from 600 to 1200 mm, not exceeding 60 kg.

The closing speed and end-stop of the door closer with standard scissor arm are adjustable.
Able to withstand temperatures from 10° to 40°C, the DC01 has a silver color finishing.
