**SHOK\_CA replacement cover for SHOKV4 manual call points from SHOK® range.**

Your manual call point SHOKV4 is supplied with a protective cover.

In order to protect your device, this piece is made of a solid and perfectly translucent material, ensuring a good visibility of the main window.

It comprises a magnet, specific to the cover opening detection function, relating to SHOKV4.

It is, however, possible that it gets damaged. If you need to order a replacement cover use the SHOK\_CA product number!
