This round power supply allows space saving thanks to its reduced dimensions.
It can be mortised in a 60 mm box or a junction one.

Compact and easy to mount, the flush-mount ADE12015 round power supply also benefits from a reinforced isolation of class II.

Protection against short circuits and overcurrent is ensured via PTC. Output voltage is 12V DC for 1,5 Amps.

This kind of round power supplies is perfectly adapted to small spaces while offering a good security level!
