The K1000 is a pin only access control system, working as a user-friendly stand-alone keypad. Its first and main relay allows to easily program up to 1000 user codes ; the secondary relay manages up to 10 or functions as a doorbell.

Highly wear- and weather-resistant, fitted with a 3 m long cable, including a backlit keyboard providing optimum night visibility, it is well suited for indoor and outdoor vertically surface mounting.

Operating in 12 or 24V AC/DC, consuming low energy (110 mA), the K1000 meets the needs of numerous facilities with great efficiency.
